Summary

I am a skilled web developer for building and maintaining websites. Specialized in front-end development, utilizing technologies such as HTML, CSS, Angular Js, Bootstrap, jQuery and Tailwind CSS. I am passionate about creating user-friendly and efficient web applications. Known for being a quick learner, I stay up-to-date with the latest technologies and enjoy solving problems and collaborating with teams to deliver exceptional results.

Career Portfolio Website

- Developed a comprehensive career portfolio website using HTML, CSS, and Bootstrap.
- The website includes sections on educational background, research areas, honors and awards, publications, and contact information.

Inventory Management System

Designed an inventory management website features a clean and user-friendly design with the following components:

- **Home Page:** Highlights the system's core functionalities, including real-time inventory tracking, a modern flat design, and global reach. It also includes a section for users to sign up for updates and social media links for staying connected.
- **Sign-In Page:** Provides a login form for returning users, with options to remember their login details and a link for password recovery.
- **Sign-Up Page:** Allows new users to create an account by entering their name, email, and password. It also includes a link for users who already have an account to sign in.
- Each page is designed for ease of navigation and efficient user interaction, aimed at enhancing inventory management processes.

EziTech Website

Developed the clone of EziTech Website with the following component:

- **Header:** Shows the logo and a menu with links to Home, About Us, and other pages, plus icons for favorites and search.
- **Hero Section:** Highlights web design with a search bar and links to featured products.
- **How It Works:** Visuals explaining the institute's services.
- **Work Section:** Displays cards for different tech areas like Machine Learning and Block chain.
- **Recommended Courses:** Lists courses with details on images, descriptions, prices, and durations.
- **Internships:** Shows internship opportunities with job details and a "Read More" button.
- **Information Box:** Promotes the mobile app for learning anytime, with download links.
- **Footer:** Includes institute info, page links, contact details, social media icons, and copyright information.

University Website

- **Header:** Contains the logo, a navigation menu with links to different sections, and icons for menu options.

- **Hero Section:** Features a big welcome message about the university and a button to learn more.
- **Courses Section:** Lists different types of courses offered, like Intermediate, Degree, and Post-Graduation.
- **Campus Section:** Shows images of the university's campuses in London, New York, and Washington with names overlaid.
- **Facilities Section:** Highlights key facilities like the library, playground, and cafeteria.
- **Testimonials Section:** Displays quotes from students sharing their positive experiences.
- **Call to Action (CTA) Section:** Encourages visitors to contact the university to enroll in online courses.
- **Footer:** Provides social media links and a copyright note.
